

Yeghoian Paving our Parking Lot

The week of 10/6 - 10/10/25 was intense and difficult, especially for you customers. We did major parking lot maintenance!

Linda Gommel

1. After a few days of crack-filling and repairs of small spots, they started the big project to replace the asphalt in the large eastern area of the parking lot. Here is the grinder at work removing old asphalt.

2. The grindings are recycled.

3. The grindings get spread onto the dirt.

4. Trucks had to run to asphalt plant near V.V. College and bring it all the way here. Above, the truck is loading hot asphalt into paver.

5. After the paver spreads the hot asphalt, the roller follows.

6. Even after the rolling, there is much hand work to do smoothing, making edges straight, etc. These guys really work hard!

LVEDA Meeting

(Lucerne Valley Economic Development Association)

Monday, October 27th
