God Baffled That Democrats Managed To Ruin California

May 19, 2024 · BabylonBee.com

HEAVEN — According to sources in the celestial realm, God is scratching His head in wonderment that Democrats somehow managed to mess up California.

"You guys were literally given everything! How do you even do that?" said a spokesangel for the Almighty. "You have perfect weather, beautiful coastline, great surfing, skiing in the mountains, fish tacos, rolling vineyards, the list goes on. How on earth did you manage to take the most beautiful stretch of land on God's earth and turn it into a huge dump?"

"It doesn't make any sense."

Sources say Democrats in California took issue with the idea that they were to blame, claiming instead that everyone else was to blame and definitely not them or anything. "Yeah, it's like global warming and stuff," said Governor Gavin Newsom to a crowd of homeless meth heads on Pier 39. "And not enough taxes. If we had more taxes, all the things would be better."

Sources confirmed the host of Heaven is watching in amazement as people are actually leaving the beauty of California

in the millions, choosing to live instead in places like Ohio and Florida. "We intended Ohio to be a place of torment for those who displease the Lord. We filled Florida with man-eating snakes and gators so mankind wouldn't live there," continued the spokesangel. "But somehow, Democrats have made those places actually look attractive to people. It's truly baffling."

At publishing time, God had finally decided to pour out his divine wrath after finding the Democrats had figured out how to ruin fish tacos.

We Must All Be Tolerant!

Canadian Jiggs McDonald, NHL Hall of Fame

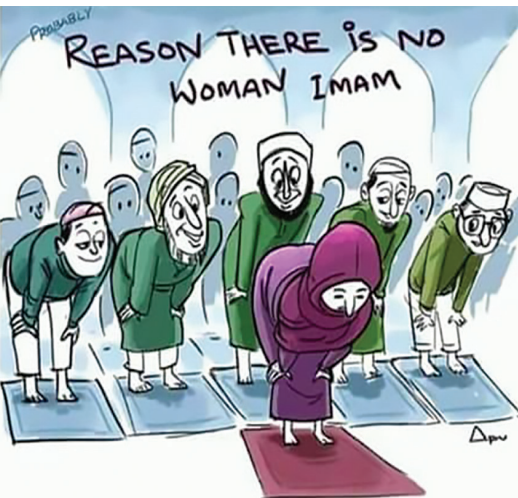

broadcaster, speaking in Ontario, says: "I am truly perplexed that so many of my friends are against another mosque being built in Toronto."

"I think it should be the goal of every Canadian to be tolerant, regardless of their religious beliefs. Thus, the mosque should be allowed, in an effort to promote tolerance."

"That is why I also propose that two nightclubs be opened next door to the mosque; thereby promoting tolerance from within the mosque. We could call one of the clubs, which would be gay, The Turban Cowboy, and the other, a topless bar, would be called You Meca Me Hot."

"Next door should be a butcher shop that specializes in pork and adjacent to that an open-pit barbecue pork restaurant, called Ira of Ribs."

Across the street there could be a lingerie store called "Victoria Keeps Nothing Secret", with sexy mannequins in the window modeling the

goods, and on the other side, a liquor store called Morehammered."

All of this would encourage Muslims to demonstrate the tolerance they demand of us.

And if you are not laughing or at least smiling at this point, it is either past your bedtime, or it's midnight at the oasis and time to put your camel to bed.

FROM BOYFRIEND VERSION 5.0 TO HUSBAND VERSION 1.0

This came to us recently, and we wish we knew who to credit, but we don't. Still, we cannot help but share it with our tribe because it made us smile! It is quite creative, as you will appreciate, so we fervently hope this brightens your day!

The query:

Dear Tech Support,

Last year I upgraded from **Boyfriend 5.0** to **Husband 1.0** and noticed a distinct slowdown in overall system performance, particularly in the flower and jewelry applications, which operated flawlessly under Boyfriend 5.0.

In addition, Husband 1.0 uninstalled many other valuable programs, such as Romance 9.5 and Personal Attention 6.5 and then installed undesirable programs such as: NBA 5.0, NFL 3.0 and Golf Clubs 4.1. Conversation 8.0 no longer runs, and House cleaning 2.6 simply crashes the system.

Please note that I have tried running Nagging 5.3 to fix these problems, but to no avail.

What can I do?

Signed: **Desperate**

The response came weeks later, out of the blue:

Dear Desperate,

First, please keep in mind, Boyfriend 5.0 is an Entertainment Package, while Husband 1.0 is an Operating System.

Please enter command: I-thought-you-loved-me.html and try to download Tears 6.2. Do not forget to install the Guilt 3.0 update. If that application works as designed, Husband 1.0 should then automatically run the applications Jewelry 2.0 and Flowers 3.5.

However, remember, overuse of the Tears application can cause Husband 1.0 to default to Grumpy Silence 2.5, Happy Hour 7.0, or Beer 6.1. Please note that Beer 6.1 is a very bad program that will download Snoring Loudly Beta version.

Whatever you do, DO NOT, under any circumstances, install Mother-in-Law 1.0 as it runs a virus in the background that will eventually seize control of all your system resources! In addition, please do not attempt to re-install the Boyfriend 5.0 program. These are both unsupported applications and could eventually crash your entire system!

Imagine

"What if all cars were EVs, and somebody invented an internal combustion engine so your car could be fueled in 1/20th the time, have 4-5 times the range in any weather, would cost less, weigh less, cause less road wear and tires lasted much longer, and it did not rely on third-world child labor for its non-renewable rare earth elements. Oh, and it produces CO2 as a byproduct, promoting the greening of the planet. I bet it would sell better than EVs!"
